

Introducing the C65 Wireless Headset

Totally wireless hands free solution for DECT™ cordless system with total site roaming with the BS230 or BS260 base station.

The stylish C65 is a wireless headset designed to be registered to GAP* compatible DECT™ bases or wireless PBXs, which is supplied with a fast desk charger and headset holder. Once registered, the C65 becomes an independent additional extension to the cordless radio exchange (REX) / PBX like any other cordless handset, with total site roaming, but with no dial pad.

The C65 is the perfect solution to workers that require a hands free wireless communication device that provides crystal clear sound communications with up to 9 hours conversation time, featuring a noise-canceling microphone that reduces background noise. The headset can be configured and used with 3 stylish wearing options.

Basic features:

- Complete site roaming with DECT cordless PBX
- Discrete, stylish desk charger and headset holder
- Noise canceling microphone
- High quality digital audio
- Up to 9hrs talk time
- Standby time 60 hrs
- Answer/End calls remotely
- Mute and volume functions
- Stylish headset with 3 wearing options
- Encryption – security from eavesdropping
- Lithium-ion polymer battery
- 12 months warranty
